### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Gates (Reg. No. 33,500) on March 21, 2007.

The application has been amended as follows:

Claim 29, line 1, delete "logic", insert – computer-executable code that, when executed by a computer, performs a method –

Claim 29, line 2, delete "logic", insert – method –

### ***Reasons for Allowance***

2. Claims 1-42 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Figures 8-23(b) of Pham show various interfaces (or application templates) utilized by a user to access and specify various segment, filter, measure, and function information. Also, col. 6, lines 51-55 and col. 18, lines 1-11 of Pham disclose that the data warehousing techniques are adapted to work with SQL commands. SQL runs in a visual programming environment. However, Pham does not expressly teach that the sequence linked together in the workflow is represented as icons that are linked

together. Ise et al. (JP 8-180110 A) discloses the display of icons to represent various stages in a workflow, yet Ise does not disclose that there are icons to represent *all of segments, filters, measures, and functions*. The claimed invention requires that a sequence of one or more icons representing segments, filters, measures, and functions be linked together in a workflow. This limitation is interpreted to mean that there is at least one icon representing segments, at least one icon representing filters, at least one icon representing measures, and at least one icon representing functions, and all icons are linked together in a workflow. Consequently, claims 1-42 are deemed to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
